Capstone Requirement:

Seniors enrolled in the B.A degree program in Anthropology are required to complete a capstone project, which is intended to be an integrative experience. Students are expected to apply what they have learned in Anthropology to a research problem/project of interest to them. Based on their research, and as part of or in addition to the work of their chosen course option (below), students will produce a paper of at least 20 pages or an alternative project that is the intellectual equivalent to such a paper, working closely with their advisor/instructor through ANT 499 capstone course to ensure the project is a high-level integration of their undergraduate education in Anthropology. The paper topic or alternative project must be approved by the supervising instructor.

Students must select **one of the following course options** for completion of the capstone project:

300-level topical course in anthropology.

400-level anthropology Advanced Seminar Course.

400-level independent study course that involves archival research or fieldwork. Where allowed by the program, a student can enroll in an Independent Studies Course in anthropology during a Semester Abroad to complete this requirement.

500-level anthropology Graduate Seminar.

All capstone students will be enrolled in a **1-credit ANT 499 Capstone** course to receive advising support for completion of their advanced capstone project.

Students successfully completing the Honor's Program may substitute their thesis for the Capstone project requirement.
